

Tangihua Lions Lodge Orienteering courses

Orienteering Course 2

Start this course by walking up the road to the Kauri Dam Track. The start is 21m in from the signpost – looked for a marked tree on the right. This is a bearing and distance course – although the legs are short, the bush is fairly thick in places and you will need to develop a team strategy to stay on course and not lose the previous marker (in case you need to return and start again).

Write the code you find on each marker in the space in the table below. Each one is the name of a fruit.

Follow these instructions:

To go to this marker...	...follow this bearing...	...for	Code Found
1	134	16m	
2	188	26m	
3	052	18m	
4	001	32m	
5	113	18m	
6	173	26m	
7	122	17m	
8	156	17m	
9	086	31m	
10	033	17m	

When you finish, you will be just next to the access road, about 110m up the road from your start point. Go out onto the road, turn left and walk back.

Tangihua Lions Lodge Orienteering courses

Orienteering Course 3

Do not attempt this course without consulting your course leader or teacher. The course starts at a tree about 10m into the nature walk track and is clearly marked. The nature walk is on the access road on the left as you walk away from the Lodge. The course is a bearing and distance course – you need to visit each station in turn and record the code on its marker.

To get to station...	...follow this bearing...	...for	Code Found
1	066	82m	
2	083	109m	
3	349	95m	
4	084	38m	
5	002	106m	
6	082	121m	
7	003	98m	
8	054	62m	
9	325	30m	
10	039	40m	
11	115	53m	

Now follow rough track at left at 055, going past marker 1 right and following the track 2 and meeting the track at marker 13. You can leave the course now by turning right and following the track back to your start point (about 15 minutes). If you intend to go on, you must first have the permission of your group leader or teacher.

To go on to part 2, follow the marked track for about 300m until you come to the point where the track turns down to follow the saddle across to the pa site. At this point you will see a marker that tells you how to get to the start of part 2, which is about 22m at 121 away.

To get to this station...	...follow this bearing...	...for	Code Found
15	022	80m	
16	345	80m	
17	353	32m	
18	022	127m	
19	005	55m	
20	325	39m	
21	047	32m	
22	326	33m	
23	122	90m	

Now follow the track down the hill and you will join up with the marked track to meet the junction where you can return to the Lodge (about 20 minutes).
